

## Field Trips

Charterhouse School students enjoy a wide range of educationally enriching activities throughout the calendar year. In the past our students have gone to local museums including the Science Museum of Virginia, the Virginia Holocaust Museum, the Black History Museum and Cultural Center of Virginia, Inc. and the Virginia Aviation Museum. Students have ventured out on science related trips including a boat trip on the James River to study the human impact on the ecosystem and a trip to the Morefield Gem Mine in Amelia County which yielded dug up gem and mineral treasures.
